Easterseals Redwood is a United Way Agency Partner.

Easterseals Redwood's innovative programs and services encourage abilities to grow so lives can flourish.

MISSION

Easterseals Redwood's mission is to advance 100% equity, access, and workforce inclusion for people with disabilities, people facing disadvantages, and veterans. Our services impact the lives of people throughout their lifespan and the lives of their families, their communities and society at large.

OVERVIEW and HISTORY

The story of Easterseals Redwood is a story of love, dedication and community. Easterseals Redwood was formed when Easterseals Serving Greater Cincinnati and Redwood joined together in August 2022 to expand our services across state lines. Both organizations were founded by parents seeking brighter futures for their children with disabilities. Building on Easterseals' 110-year history and Redwood's 70-year history, Easterseals Redwood continues to enrich education, enhance health, expand employment, and elevate community in the Greater Cincinnati and Northern Kentucky region. Together, we are helping more people with disabilities, people with disadvantages, and veterans thrive, through our comprehensive services and compassionate care.

ADULT DAY SUPPORTS

Fostering dignity, self-direction, increased independence, and an improved quality of life

Adult Day Programs

Adults participating in Easterseals Redwood's Adult Day programs in Ohio improve skills and benefit from social interaction. Participants are encouraged to take part in our daily schedule of instructional programs, leisure pastimes, sensory experiences, art/music/exercise, tasks of daily living, and community outings customized by our activity specialist to meet individual goals and preferences of our adults. Easterseals Redwood Ohio offers Life Skills programs based on

individual needs, personal goals, and age. Medication administration, g-tube care and other delegated nursing care is provided.

WORK AND GROW

Increasing self-sufficiency and dignity through the power of work skills training and community integration.

Our Work and Grow programs provide individuals with total integration into the community as they spend most of their day onsite at a community-based location. We provide a vocational-based curriculum, focusing on gaining greater access to work, training, education, social, and recreational opportunities.

These integrated worksites offer paid work and are hosted by businesses in Hamilton and Butler counties. Work and Grow programs provide person-centered supports so individuals can maximize their work potential and develop personally and professionally.

Medication administration, g-tube care and other delegated nursing care is provided.

Individuals learn vocational skills through personalized training and completion of subcontracted, paid work from local businesses.

Our programs also provide an additional space for personal growth through recreation and leisure activities during the workday.

We have Work and Grow locations in neighborhoods throughout Hamilton and Butler counties.

Locations include Walnut Hills, College Hill, West End and City of Hamilton.

Easterseals Redwood and Cincinnati Museum Center have partnered to provide a path to employment for people with disabilities. This partnership identifies and recruits employees for Cincinnati Museum Center while also building a more inclusive culture within the venue and the community.

Participants discover new interests, learn technical skills, strengthen communication skills, explore assistive technology and discover employment opportunities all while providing services and filling necessary job roles.
